

ENGLISH 4YOU PROJECT

UNIVERSITY OF
CAMBRIDGE

Michele Martinelli's English 4You experience report,
carried out in the year 2025, in the months from
January to May

THE PROJECT

English 4You is a project organized and financed entirely by the school. It consists of a 90-hour exam preparation course to prepare for the the B2 English certification exam. To enter this project, first you need to take an entrance test and an interview, where only the former are exempt from all payments. Then, after taking the certification test, the first 7 with the highest score, together with their final grades, also receive a free study trip abroad to improve their English.

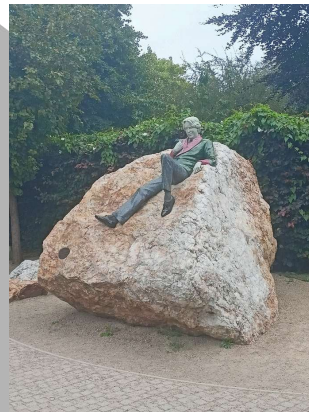

MY EXPERIENCE

Personally, also thanks to my school grades, I did very well in the admission test and managed to enter this course. At the beginning it was very tiring, for more than 4 months, once or twice a week I had to return to school in the afternoon for 2 or 3 hours. It takes a lot of willpower but all the work pays off: on the day of the exam we were ready for anything! I managed both to get the certificate, which is very important in the work's world, and, together with a friend of mine, to have a free study trip to Ireland. It was wonderful, we met many new friends and improved our spoken English a lot.

THE TRIP

The study trip to Ireland was very nice. We went to Ennis, a small town in the central west of Ireland. We were there for three weeks, sleeping in foster homes and accompanied by two professors. In total we were 30, from 4 schools in the province of Ancona. The program went like this: in the morning there was school, spoken English lessons in groups, then in the afternoon we did sports, always with the school. We did a lot of typical sports like Earling! Then on Saturdays we went on an all-day outing such as, for example, the fabulous Cliffs of Moher, rafting or visits to famous cities in the surrounding area. The rest of the time we spent it with the family or went out with the friends. At first I wasn't sure to go, but now I definitely think it's an experience I would do again! It was worth it! We also created a very good group of friends and we are still in contact!

THANK YOU

Michele Martinelli, 5AM
